## QUECHUA PRAYERS

If Latin is said to be the language of angels, then *Runa Simi* (literally ‘mouth of the people’, commonly known as Quechua – the ancestral language descendant of Inka civilization) is the lingua franca for expressing the subtleties of existence on Earth. That is why it is still alive, a true ‘Living Language’ spoken by millions.

In honor of your heartfelt dedication to our Great Work, we offer you these invocations to vibrationally deepen your embrace of Pachakuti Mesa Tradition shamanism. ~ don Oscar Miro-Quesada
